TOWN MEETING APPROPRIATES \$1,157,379

Approves Increases For Town Employees

The town meeting Monday night approved salary increases for all town employees as recommended by the special salary committee and voted appropriations totalling \$1,157,379.28 for departments and special articles.

This sum, together with the amounts voted at the special town meeting last November for new schools and civil defense, would indicate an increase of \$3 to \$5 in the present \$36 tax rate. Chairman Roy E. Hardy of the board of assessors estimated after the meeting, depending upon what sums, if any, the town will have to pay under the old age assistance law accepted by the voters of the state last November.

The meeting also adopted an article to include the secret ballot as part of the town by-laws; trimmed the civil defense appropriation to \$7000; approved new lighting for the library; and voted to acquire land on the watershed of Haggett's pond to protect the town's water supply.

According to several town officials it was the shortest town meeting on record. It was called to order at 7 p. m. and adjourned at 9.30 p. m.

The attendance was also one of the smallest in recent years. Attendance figures taken from the number checked off from the voting lists at the door gave the official attendance as 546.

There were many empty seats in the main auditorium and hardly a dozen spectators in the balcony when Moderator Arthur Sweeney opened the meeting. The blessing was given by the Rev. Roy E. Nelson Jr., pastor of the Baptist church, and Selectman J. Everett Collins led the meeting in the pledge to the flag.

Under Article 2 Arthur W. Cole was re-elected a trustee of the Cornell fund.

Under Article 3 it was voted on motion of John F. O'Connell to use the secret ballot at this meeting. The motion was, "After a motion has been made and seconded on an article in the town warrant, a motion made and seconded to vote on the article by ballot shall be in order. If such motion is passed by a majority of the voters present and voting, ballots approved by the moderator as to form shall be used."

Mr. Hardy moved under Article 4 that the report of the special committee on wages and salaries be accepted and that the increases recommended be incorporated in the department budgets when taken up under Article 6.

Miss Barbara Hill Elected School Music Instructor

Miss Barbara Hill was elected instructor of music and Arthur Danforth a teacher in the school system at Tuesday night's meeting of the school committee. Both appointments are effective September 1.

The committee also voted to accept the resignation of Donald D. Dunn as track coach; elected Robert McIntyre track coach at a salary of \$100, and voted to elect Kenneth K. McKiniry supervisor of athletics at a salary of \$300 a year.

Miss Hill, daughter of Mr. and Mrs. John K. Hill of Chapman ave., has for the past two years been supervisor of music in the Ludlow public schools. She will work under the direction of Mrs. Miriam McArdle, who is director of music in the school system. Her starting salary will be \$2950.

Miss Hill attended the local schools, graduated from Pynchard and took the music course in the Lowell State Teachers' college. She was a member of the original Pynchard High school all-girls' band as drum majorette in which she served for six years, the last two as drum major.

Mr. Danforth has been a substitute for James Hart in the science department for over a year. His starting salary will be \$2950.

It was the organization meeting of the committee with the senior member William A. Doherty present. (Continued on Page 16)

SLIGHT INCREASE IN APPROPRIATIONS

Total appropriations made at Monday night's town meeting were not much in excess of those made a year ago. While salary raises and increases in departmental costs helped to swell the budget appropriations, drastic curtailment in sums for special articles kept the 1951 total down.

Here is a comparison of the two years:

	1950	1951
Budget Appropriations.	\$1,029,701.65	\$1,110,407.28
Special Articles.	117,881.00	46,972.00
Total	\$1,147,582.65	\$1,157,379.28

Fifth Scout-O-Ral Program March 31

The program of the fifth annual Scout-O-Ral to be held Saturday, Mar. 31, at the Case Memorial cage, Phillips academy, was announced today by Walter Caswell, chairman of the Andover boy scout committee.

In arranging the program Mr. Caswell has been assisted by Francis Kelly, Merrill Burnett, Arnold Schofield, Calvin Metcalf, Arthur Schwarzenberg, Fred Schaberg, Winston Blake, Robert Domingue, James Butler, James Tammany, Edwin Zelenzy, Howard Young and John Souter Jr.

Cubs 8 to 11, scouts 11 to 14, and Explorers 14 to 18, whose registration is in effect Mar. 31, will be eligible to compete.

All competition will be based on dens, patrols and crews. The Knight Eagles will be on hand to assign and judge various events.

Among the events will be signaling by Morse code and semaphore; first aid, compass readings, knot tying and string burning.

Special Articles Total \$46,972

Appropriations for special articles at the town meeting were much less than usual. While they ran to \$117,881 last March they totalled only \$46,972 at Monday's meeting, which is one of the reasons why the tax rate will not jump more than the \$3 to \$5 as estimated by Chairman Roy E. Hardy of the board of assessors.

The articles and the action taken on them are as follows:

7. \$1500 for improvement of Shaw property at 85 Main st.

Defeated
8. Authorize selectmen to sell barn at town infirmary.

Approved
9. Authorize selectmen to sell two lots of land on Carmel rd., adjacent to infirmary garage.

Approved
10. \$1447 and turn-in of two 1950 Ford sedans for two new autos for Police department.

Blood Donors Give 206 Pints

In spite of an unprecedented amount of illness in the community, 206 pints of blood were collected during the visit of the bloodmobile, one day at Shaw-sheen Mill, and two days at South church.

Although this is short of the announced goal, Andover chapter is very grateful that the support of the community made it possible to meet the obligation so well under such a handicap. A number of places were forced to cancel their bloodmobile visits at the height of the epidemic.

Red Cross Collects \$6224 In Drive

Total for the fund drive at the close of the report day held at Andover National bank, Monday was \$6224.20, or approximately 45% of the quota, reports chapter treasurer John E. Gilcreast. This represents the bulk of the advance gift and residential solicitations.

MODERN CIVILIZATION'S THREE GREATEST KILLERS

What are modern civilization's three greatest killers? Heart disease, cancer and accidents? No, says Dr. Richard H. Hoffmann of New York, according to Pathfinder news magazine.

Today's grimmest reapers, he observed after 40 years as physician and psychiatrist, can be found in most homes and offices. Every year the treacherous trio topples more than 800,000 people into early graves, he estimated, and destroys the happiness of millions more. Dr. Hoffmann's assassins:

The calendar. Ever reminding of "payment due" and other deadline dates, it produces tensions, and tortures with "the tyranny of apprehension."

The telephone. Though often indispensable, it can jangle the nerves into fatigue. Repeated tensile states induced by "the tyranny of interruption" can bring on heart disease, ulcers, gallstones or kidney stones.

The clock. It incites the urge to hurry. Worst despot among "the tyrants of appointment" is the alarm clock. Bodies and minds, to be freed of yesterday's debris, must go to bed earlier and let nature be the timekeeper.

Abbot Notes...

Several school programs of interest will take place within the next several days at Abbot academy. Saturday at 8 p. m. in Davis hall the Abbot Dramatic society will present its annual play. Under the direction of Miss Emily Hale the society will play the Noel Coward comedy, "Hay Fever". The scene is laid in an English country house, and is as amusing as it is also undated - time the present - will always apply to its pattern. The action of the play is totally unrelated to the unpleasantness suggested by the title. Rather, it tells a story of the manners of today as practiced by an artistic family among themselves and their guests. The role of David Bliss will be played by Miss Flor Palacios, and that of his wife, Judith Bliss, will be played by Miss Lydia Eccles.

The entertainment is open to the public without an admission charge.

Wednesday, Mar. 21, at 7:30 p. m. the physical education department will present an exhibition of gym and dance. The program will take place in Davis hall. Visitors are welcome.

Thursday morning, Mar. 22, the school will close for the spring vacation period, and resume Wednesday, Apr. 4.

Vespers on Sunday will be conducted by Dr. Hans Sidon of Christ Presbyterian church, Lawrence. Dr. Sidon is the teacher of Bible on the faculty at Abbot.

Musical Subjects
In Film Festival

Music lovers will find the program at 7.45 p. m. Monday, Mar. 19, particularly enjoyable as the five films selected for this part of the film festival are all on music subjects.

"Steps Of The Ballet" shows just how a ballet is created; the basic positions, movements and steps are demonstrated and the choreographer, composer and designer explain their parts in planning the ballet. "Coolidge Quartet" and "Jose Iturbi" are both short musical films, lasting about ten minutes each. A fantasy in color inspired by a very primitive type of barn dance music is the subject of "Hen Hop." The longest film to be shown is "Christmas Slippers," which is based on a story by Nikolai Gogol, made into the opera "Cherevichki," by Tchaikovsky.

Two more evenings are planned for this festival, one on the subject "Ideas Are Important" and the other "Arts And Crafts." The public is cordially invited to attend.

Barnard Essays

All the seniors, most of the juniors, and a few sophomores sported cramped hands and tired fingers Tuesday after writing all day in the Barnard essay contest. Now the English teachers begin to work, correcting the essays and selecting the winning eight. Since pen-names were used, the identity of the winners will not be known until they claim their work in some future assembly.

Kilamey Kut-ups

Why not celebrate St. Patrick's day by attending Kilamey Kut-ups, Friday, Mar. 16? Phil Christie, Boston disc jockey, will spin the platters at this dance and will also crown a queen. Students from many high schools in this vicinity have been invited to Kilamey Kut-ups, which is being sponsored by the Punchard class of 1951. The dance will be held in the Memorial gymnasium from 8 to 11 p. m.

The members of the dance committee are as follows:
Bessie Christie, chairman; Cliff Lawrence, president; Dot Belanger, Ruth Sweeney, Marion White, Carol Wright, Connie Coleman, Janet Hall, Virginia McCullough, Nancy Southwick, Sylvia Strumpfmann, Betti Gigis, Jim Bailie, Charlie McCullom, and Jack Abercrombie.

Assembly

In a special assembly for girls Monday, Miss Jeanne T. Bernardin, girls' guidance director at Punchard, introduced Mrs. Marsh Peterson, personality director at Burdett college. Mrs. Peterson, returning for the third straight year to address Punchard girls, gave a very worthwhile talk on "Personalities, a Career Must." She demonstrated various mannerisms which detract from one's personality and also described ways in which to cultivate a better personality. Among her suggestions were to develop a sense of appreciation, to accept responsibility, and to forget self-consciousness.

Excellent Films

Several excellent films have been shown in the various classes this past week. J. Arthur Danforth's physics and chemistry classes have viewed "On Jupiter," which depicted man's amazing progress in industry, transportation, medicine, and so forth, in the past few centuries. The film also presented an exciting preview of the world of tomorrow, making one wonder, "What will man think of next?"

Two other films have been shown to the gym and biology classes. The first, "Simple Stunts," demonstrated numerous stunts designed to develop muscles, co-ordination, flexibility, and balance. The second, "The Gift of Green," produced by the N. Y. Botanical Gardens, described in colorful detail the basic structure of plants.

Drama Festival

The cast has been selected for "O Distant Land," a one-act play by Stanley Richard which Punchard will present at the annual Massachusetts High School Drama festival. The festival will be held at Newton High school, Friday, Mar. 30, and Saturday, Mar. 31. Everyone is invited to attend.

P.H.S. Sport

Punchard was eliminated from the Eastern Massachusetts basketball tournament when it suffered its first defeat of the season in the semi-finals at the Boston Garden Friday afternoon, dropping a 49-40 decision to Provincetown.

It was a close battle for three periods with the Blue and Gold entering the final quarter enjoying a 35 to 33 advantage. This was quickly wiped out by the team from the cape which put on a great spurt over the closing minutes of play to score 16 points while Punchard was picking up only 5.

In the finals Saturday night Chelmsford won the Class C title by a fourth period rally that gave it a 57-56 triumph over Provincetown. Quincy won the Class A honors while Fairhaven captured the Class B title.

Punchard made a fine record on the courts for the 1951 season, going through its regular schedule without a loss, the first time in the history of the school that a basketball team had an undefeated season.

It was also the fifth consecutive year that Coach Ken McKiniry's team was picked for the scholastic classic, winning the Class C title in 1949.

At a meeting of the Punchard squad Monday, James Dolan, a guard and member of the sophomore class, was elected captain of the 1952 basketball team.

The son of Mr. and Mrs. Henry Dolan, 99 Chestnut st., he played guard on the football team last season and is expected to be a candidate for the baseball team this spring. He is also president of his class and a member of the student council.

Army Standards Too High

America will be ill-prepared for all-out war unless its armed forces abandon the unreasonably high standards which are screening able men into the 4-F junk pile.

That's the finding of a Cosmopolitan magazine reporter who claims that the new mental test for the service would have eliminated some of the best fighting men of World War II, including Congressional Medal of Honor winners.

Writing on "The 4-F Scandal" in the March issue, the reporter quotes Selective Service Director Lewis Hershey as saying that he doesn't believe six million of the nation's 150,000,000 people could pass present-day induction standards.

According to the article, "an artful draft dodger could deliberately flunk the armed forces' mental test. Despite double checks on flunkers, fifty percent of the men rejected between last July and October were turned down for failure to pass the mental examinations."

The author states that one out of every four registrants is rejected for physical defects. He names top-flight athletes—golfers, gridiron stars and baseball players—who were listed as 4-F's during World War II. "Today," he points out, "the armed forces have raised, instead of lowered, the unreasonable standards they applied during the last war."

Colonel Warner Bowers, chief surgical consultant to the army, believes that the wholesale rejection of selectees is a national disgrace, says the reporter. The same officer, he adds, drew up a memorandum showing that the 4-F's could handle more than fifty percent of the army's jobs.

An Apathetic Showing

If 4456 of Andover's registered voters were told that they could not vote at the last election they would storm every voting place in town and raise a merry hullabaloo about it.

But the same 4456 eligible voters who would fight to the limit for their right to vote if someone should try to deny it to them, did not see any reason why they should vote March 5, so they remained away from the polls and let the other 2862 voters decide the election for them.

The absence of contests for other places on the ballot is cited as the reason why only 39.1 percent of the voters turned out on election day, but this apathetic showing indicates a lack of interest in our town government which is hardly in keeping with the best traditions of Andover.

Adversity has made many a man great who, had he remained prosperous, would only have been rich.—Maurice Switzer.

VITAMIN A

The inability to see well at night is a basic symptom of vitamin A deficiency. In advanced cases, the patient has difficulty reading or detecting objects in dim light, and may stumble in the dark, particularly on sudden changes from bright to dark. Severe vitamin A deficiency also affects outer layers of the eye cells, the skin, and the respiratory tract. Doctors prescribe fish liver oils and vitamin A concentrates to alleviate this condition.

INTERNATIONAL WHIRLIGIG — By John Fisher Russian Moves In Balkans Create Tension In Ankara

Although the spotlight has been playing on the Big Four conference in Paris, which involves peace in Northern Europe, the defense of Turkey and the Middle East suddenly has emerged as an acute, secondary problem.

High tension over threatened Red satellite attacks on Yugoslavia and Greece has greatly disturbed isolated Ankara.

President Celal Bayar's worries also were increased by a recent magazine article by U. S. Chief of Staff General Omar N. Bradley, hinting that America must not deplete its manpower and resources should local outbreaks occur along the Soviet Union's Asian borders.

The Turkish paper Cumhuriyet exclaimed, "Bradley's theory is a mistaken and dangerous one. If (he) inclines American statesmen to his view, Turkey will find herself alone."

Zafer, a pro-government sheet, added more gloom by saying, "At last Turkish opinion sees the situation clearly: It has discovered how much the assurances given us by the Americans are really worth."

Fear of being left in the lurch should Stalin strike in the Balkans or the Middle East is behind the latest plea by Ankara that the United States join the Turkish-British-French mutual assistance pact of 1939.

Allied Visits Reassuring

Final action on the type of support the United States ultimately will give Turkey has not yet been decided on. But some of Ankara's anxieties were lessened by recent visits to Istanbul of American and British officials, including Assistant Secretary of State George C. McGhee and Secretary of Air Thomas K. Finletter.

Admiral Robert B. Carney, commander of the U. S. Mediterranean fleet, and Lieutenant General Sir Brian Robertson, commander-in-chief of British forces in the Middle East, also conferred with Turkish officials on security.

Renewed assurances of a more binding defense were necessary. Pro-Russian agitators and faint-hearts were becoming successful in convincing the Turkish public that it should not bank on American military aid. Disappointment over lack of security guarantees and in the failure of UN forces to win a conclusive victory in Korea caused a wave of "neutralism" with journalists and politicians suggesting that Turkey sit out the fence.

Reds spread canards that the severe casualties suffered by the Turkish brigade in Korea—the highest of any of the participating 13 countries except the U. S. A. and the Republic of Korea—resulted because General MacArthur deliberately left it behind to get killed.

"The brigade of Turkish janissaries was utterly demolished," said the Moscow New Times. "The problem now is how to deceive the relatives of the dead."

Reds Exist Underground

The Communist Party is outlawed in Turkey. But the Reds boast that it operates underground. It employs all kinds of front organizations to split Turks from their western friends. A phony outfit, called the Turkish Peace Society, has been gathering signatures to the notorious Stockholm Appeal. Its bosses accuse the government of banning its publications and arresting its members.

Even before the Turkish brigade reached Korea, it was the target of anti-American propaganda. As troop trains, transporting its 5,000 soldiers, passed through Turkish towns en route to embarkation, Communists placed signs in railroad stations declaring, "The Turkish people protest against the government severely carrying out Washington orders." "Our sons will not shed their blood in Korea for Yankee imperialists."

The Communists also exploited economic unrest. They charged that because of the Marshall Plan and resulting competition from American goods, local silk and cotton production was in a state of collapse. One spokesman said, "About 293,000 families engaged in tobacco growing are on the verge of ruin. Starvation is rife in the Turkish countryside."

Pro-Soviet Element at Work

Employees of the Sivass locomotive works circulated leaflets announcing, "We railroad men will not take our brothers to the slaughter in the interests of Turkish millionaires and American imperialists."

The pro-Soviet element has launched a campaign of vituperation against the Ankara government. Clandestine publications charge that President Bayar, described as a millionaire, hates the working class. They accuse him of having been a fascist, friendly to Hitler. They say that back in 1937 when he was the prime minister, he led a bloody crusade against a Kurdish uprising, annihilating 170,000 tribesmen in the Dersima region.

The Reds charge that Prof. Fuat Koprulu, foreign minister and one of the staunchest American supporters, is the leader of a new "Great Turkey" movement which plans to extend Turkish borders to Rumania and up through the Caucasus to the Russian Volga. They say that he wants American arms so he can first bomb and later seize the Soviet Baku oil fields and then capture the whole of Bulgaria.

An attempt to keep alive the fiction that Turkey covets Bulgaria.

INTERNATIONAL

WHIRLIGIG

(Continued from Page Eight)

garia is the charge, lodged by Sofia a few days ago at the United Nations, that Greece and Turkey are in a plot to spy out Bulgarian territory by aircraft. Bulgarian delegates insisted that Greek planes are reconnoitering the Bulgarian border and then flying home via Turkey with the connivance of Ankara.

Report Training for War

Bulgarian refugees of Turkish origin, fleeing into Turkey, in turn report that Bulgarian Communists under Soviet officers are training former Greek Red guerrillas in mountain warfare for later use against Turkey, Greece and possibly Yugoslavia.

Ankara also is alarmed by intelligence reports that Stalin is increasing his Black Sea navy, fortifications and air bases. Russian shipyards are said to be completing a battleship of 35,000 tons and 30 submarines.

Two Soviet battleships, five cruisers, 21 destroyers and 40 submarines already are listed as stationed in the Black Sea, confronting a tiny Turkish navy to which six subs, four destroyers and several other small American-gift craft have recently been added. The Turks fear that the Russians might suddenly land in Northern Antolia and cut Turkey in half.

These several threats to Turkish security are reasons why Ankara so urgently requests specific military guarantees from Washington.

FILMS FOR BALLARDALE

The young people of Ballardvale are cordially invited to their movie program Monday, Mar. 19, at 6:30 p. m. for grades one through six, and 7:30 p. m. for older grades. Four films will be shown during the evening: "Snapping Turtles," its habits and its encounters with other animals; "Teddy The Rough Rider" about the famous President Teddy Roosevelt; good slow motions and close-ups of baseball catching will make the third film interesting to boys, and everybody will want to see "Are You Popular," which is made especially for teen agers.

School Sailing Club Ready For Season

Members of the newly-organized Stowe school sailing club with Joshua Young, commodore, are now looking forward to the beginning of actual sailing activities after Apr. 1 at the Wakefield Yacht club.

The group has spent the winter months learning the fundamentals of knot tying and seamanship under

the direction of Mrs. Philip Hogan. With her assistance the club's Turnabout class boat is being readied for the opening day.

Members will also have use of several other craft, thus assuring individual participation in all activities. A varied program of instruction and competition with other school groups should provide an interesting and enjoyable season for club members.

Town Meeting Appropriates \$1,157,379

(Continued from Page One)

For the benefit of the voters he gave a quick summary of the tax picture and said that if recommendations of the finance committee were followed on the special articles, and with the possibility of the old age referendum putting \$2 on the tax rate his best guess would be that the town faces an increase of about \$4.50. (His \$3 to \$5 estimate was made after the meeting.)

Mr. O'Connell made a motion to have the vote on salary increases taken by ballot. This was carried 276 to 125. The ballot on adoption of Mr. Hardy's motion was Yes 373, No 143.

Under Article 5 the salaries of elected town officials were established as follows: Assessors, \$400 a year; board of public welfare, \$100 each; chairman of the board of selectmen; \$800; other two members, \$600; town clerk, \$3800; collector of taxes, \$3800; town treasurer, \$3700; moth superintendent and tree warden, \$69 a week; board of health, \$100 each; chairman of the BPW, \$300 a year; secretary of BPW \$100; treasurer of library trustees \$100; moderator \$10 a meeting.

In passing on departmental budgets Mr. Hardy made a motion that \$12,000 be voted for civilian

defense instead of the \$16,728 originally sought. On request of Mr. O'Connell he said that the department needed \$4318 for the director, \$1500 for an assistant in the office in the event there was more clerical work than the director could handle; \$1250 for office supplies and maintenance; \$1200 for a communications system; \$900 for installation of sirens; and \$4000 for emergencies.

On motion of Mr. O'Connell it was voted to appropriate \$7000 for civilian defense.

Discussing Article 19 to widen Greenwood road it was stated that Mr. Winslow, one of the owners of the land, was giving his section of the land to the town, Fred Kress, another owner

would take \$150 or charge the town 15 cents a yard for the fill; and that Mr. Higgins of the Central Construction Co., would sell his land to the town for \$1. The article was approved.

The voice vote on Article 24 calling for \$2100 for improving lighting at the library was so close that a standing vote was taken. The count was Yes 233, No 118.

The \$2500 in Article 29 to improve the Central playground was for a skating rink, it was brought out in discussion. This would be placed in the southeasterly corner after all drains for the proposed new school were laid out. In this discussion, Mr. O'Connell suggested including a wading pool for the younger children on the Central playground. He felt such an improvement would eliminate the necessity of them going to Pomp's pond and would be in keeping with facilities maintained in other communities.

Article 32 to accept Memorial Circle as a public way was stricken from the warrant after Mr. Hardy said that some of the banks had been gutted by rainstorms and that the contractor should finish the work the way it should be done before acceptance by the town.

Article 33 to accept an extension of Lincoln circle was stricken from the warrant as the work had not progressed far enough to make it passable, Mr. Hardy reported.

One day, as he walked around his estate, he found that one of his hired men had put all the roosters in the same pen, and all of them were dead, lying in a pool of blood and feathers.

Roared Lord Pepperstickle: "Gad, man, whatever induced you to put all my roosters together in one pen? Didn't you know they'd fight each other?"

"I'm very sorry, my lord," said the hired man. "I didn't see any harm in putting them together because I thought by this time they'd know that they're all on the same side."

Easter Egg Hunt On Park March 24

Organizations cooperating with the Andover Recreation committee for the annual Easter Egg hunt to be held at the park Saturday afternoon, Mar. 24, are planning to make this event even better than last year's successful gathering.

They will have a special area near the high school building for the younger children to have a hunt all by themselves, and the other boys and girls will have to scurry about the park in their search.

About 12,000 pieces of candy will take the place of eggs. Num-

erous special prizes will be distributed to those lucky enough to find the pieces especially marked with a slip of paper entitling them to the extra awards.

Stafford A. Lindsay, chairman of the recreation committee, is being assisted by Alan F. Dunlop, George A. Stanley Jr., Alco E. Taylor, Frank P. Markey, James D. Doherty, playground supervisor, and the playground staff, Donald D. Dunn and the lifeguards, Comdr. Albert Cole Jr., of the Legion, Mrs. Mary Cilley and Mrs. Arthur Jowett of the Legion auxiliary, James R. Mosher of the Andover Service club, and representatives of the Youth Center.

No Change

Watson returned to his native town after some years abroad.

"Has Watson changed much in the years he has been away?" asked one who had heard of his return, but had not yet seen him.

"No," said the man addressed, "but he thinks he has."

"In what way?"

"Oh, he persists in talking about what a fool he used to be!"

DO YOU KNOW THAT... Massachusetts factories employed 13.6% more people in January than a year ago, payrolls were up 29.4% and average weekly earnings per wage earner 14.0%, as reported by department of labor and industries. . . . The ten industrial centers having highest average weekly earnings per factory worker were Beverly \$74.02, Lynn \$71.68, Worcester \$71.24, West Springfield \$67.92, Pittsfield \$67.18, Gardner \$66.56, Fitchburg \$66.27, Framingham \$65.84, Norwood \$65.73 and Peabody \$64.63. . . . Department store sales in Massachusetts during January averaged 30.7% more than a year ago. . . . Further finds at the excavation of America's first iron mill at Saugus include the 500-pound hammer used and, still more remarkable, the 41" diameter tree trunk, embedded in clay, that was used as the base of the anvil, all in a good state of preservation after being buried more than 300 years. . . . Stock on Massachusetts farms on January 1, this year included 122,000 cattle and calves, 11,000 horses and colts, 92,000 hogs and pigs, 8000 sheep and lambs, 5,816,000 chickens and 84,000 turkeys. In hogs, chickens and turkeys Massachusetts was largest of the New England states. . . . The constitution of Massachusetts, ratified June 7, 1780, set a pattern that later was followed in framing the federal constitution. . . . (Compiled by State Planning Board)

The Brownies, under the direction of Mrs. William Nicoll, Mrs. Lewis Greenslade and Mrs. Francis J. Rodericks made their first stage appearance in a one-act play. Preceding the performance the color guard presented colors and all joined in a salute to the flag and the singing of "America."

Barbara Smith, in full girl scout uniform introduced the musical and presented the interlocutors Phyllis

Miles and Marjorie Swenson. Others in the cast included Christine Sutton, Beverly Hird; Mary Lou Stewart, Priscilla Terrio, Sandra Nadeau, Gayle Richardson, and Carol Becot. Several songs were introduced. The final chorus was led by Elaine Whitney and Barbara Smith with the entire company.

Everything in its place

Next time my wife starts complaining about the lack of storage space in our house, I'm going to tell her about the section houses on the B and M as told me by Charlie, our 8:08 conductor. It all came about from a query I made regarding those shanties you see with two rails leading into them. I have been curious for some time about the purpose of these shanties, and the other morning I noticed a small gasoline car standing just outside at right angles to the track.

"Say, Charlie," I asked, "how do they ever get that car into that shanty?" Charlie laughed. "Call it a shanty if you want to," he said, "but we call it a section house. It belongs to the section crews who take care of this particular stretch of track and right of way." "Guess they don't keep anything else in it except the car?" I questioned. Charlie grunted.

"You'd be surprised," he said, "at the amount of stuff they do keep in there — all kinds of tools and equipment for both routine work and emergency calls."

"Such as what?" I queried again. "Well, spike hammers, kerosene lanterns, colored flags, fuses, torpedoes, rail tongs, shovels, rakes — and a long list of other items, including a stove for winter use!"

"A place for everything, and everything in its place, eh?" I said. "That's right," he replied, "believe me, when they need something they may need it quick. That's why it is just good business to have everything at hand ready for instant use. And as for storage space, you'd be surprised what you can put into such a building if you give it some thought and planning."

Yes, it does take some planning to run a railroad.
